- Day Program Closing

ARTWORK STORY

As a proud Aboriginal Wulli Wulli and Kooma woman, I created this artwork to represent my deep connection to DCC Industry Group.

This piece reflects the heart of DCC Industry Group, connection. It speaks to the way we connect not only with the people that we care for, but also with each other as staff, walking alongside one another for our people.

Throughout the artwork, you'll see meeting places. These are symbols of the spaces where we all come together, yarn, share, and grow.

It's about belonging, respect, and unity, a visual reminder that no matter our role, we are all connected through culture, care, and community within DCC Industry Group, as each artwork piece represents a part of our shared journey. (Connection & Journey)
